

### Flexible facility expands East Coast capacity

*By Larry Thomas -- Furniture Today, August 18, 2009*

CONOVER, N.C. — **Zenith Global Logistics** has expanded its East Coast warehousing capacity with the opening of a 204,000-square-foot facility in Claremont, N.C.

The multi-tenant warehouse is designed for customers facing fluctuating storage needs as they address changing economic conditions, said Jack Hawn, president and CEO.

"It allows retailers to start with a small footprint and grow over time as conditions change," he said. "This flexibility means our customers can inventory their best-selling, fast-turning items with quick delivery to the dealer, thereby eliminating the need to warehouse an entire product line."

Hawn said the new warehouse also will serve as Zenith's dedicated East Coast home delivery center and will offer pick, pack and ship service for home accent products.

Thanks to a partnership formed earlier this year with Exel Direct for home delivery services, Zenith can offer home delivery throughout the 48 contiguous states.
