

Final-For Immediate Release

HEIL SCREW PRODUCTS CREATES 10 NEW JOBS IN CONOVER, NC

CONOVER – Heil Screw Products, a manufacturer of precision screw products in metals and plastics, plans to create 10 new jobs when they relocate their business from New York and begin operations in Conover in mid-August. Specializing in optical screws and miniature fasteners, Heil Screw Products has purchased a 13,000 square foot building in Conover at 1114 West First Street.

“We are thrilled with our decision to relocate our operations to the Conover area,” said Jim Heil, owner of Heil Screw Products. “Our interactions with all the professionals involved in helping us through the process have been wonderful. The new facility in Conover creates strong potential for us to grow in our markets and will allow us to expand the services we offer our customers. We look forward to a long and productive future in Catawba County”.

Conover Mayor Bruce Eckard stated, “I’m excited to see Heil Screw Products relocate to an existing facility and diversify the industrial manufacturing base of Conover. Conover’s long term economic development strategy is to attract dozens of small to medium size businesses with a variety of products and markets.”

“Machining of plastics and metals will be a great fit for the skill sets of our existing workforce,” said Kitty Barnes, Chairwoman of the Catawba County Board of Commissioners. “Catawba County continues to attract companies such as Heil Screw Products because of our history and tradition of excellence in manufacturing.”

“We’ve been working with Heil Screw Products on their move to Catawba County for over a year,” said Julie Pruett, Director of Recruitment for the Catawba County Economic Development Corporation. “Heil Screw Products is representative of privately owned manufacturing businesses that typically thrive in our community.”

Heil Screw Products will be working with the North Carolina Employment Security Commission (NCESC) during their hiring process. Information on current employment needs may be obtained through the NCESC at 828-466-5535 at 3301 Highway 70 SE, Hickory.
